xR6000 with Embedded Touch Screen Console — First-Time Set-Up Procedures

Octane FITNESS

1 Select language, then press to begin calibration.

2 Touch target icon **carefully** in each of 9 positions on screen.

3 Press NEXT.

4 Select your Network Device: Wired network or No network, then press NEXT.

5 For Wired Network Interface: Press GET AVAILABLE MACHINES, choose from list, then press NEXT.

6 Press PAIR CABLE to begin sequence. Press NEXT after successful pairing.
(Note: Immediate completion indicates failure.)

7 Choose Country and TV input signal; press SCAN. Edit channels as needed using BACK/NEXT/DELETE; press NEXT.

8 Press FINISH.

9 Follow instructions on front to set Club Settings.
