Octane
FITNESS

BOLD GAME CHANGER

Octane Fitness is a one-of-a-kind disruptor. Consider our standout lineup, loaded with innovative products that deliver exceptional distinction, motivation and performance. With an unmatched history of breakthroughs, Octane's future ensures even greater achievements.

DEFINED BY INNOVATION

A focused vision, fueled by a relentless passion to innovate, improve and inspire, differentiates Octane Fitness. We aren't satisfied to simply develop low-impact fitness equipment. Instead, we reinvent exercise with unique modalities and unmatched features.

But that's not enough for us. We then engineer unprecedented workouts with HIIT programs that motivate exercisers and generate results.

And we're just getting started. Stay tuned as we design even more premium fitness solutions that outperform your expectations and ignite your business.

Octane
FITNESS

EXPECT MORE

At Octane, we're all about more. Dedicated to a distinct niche, we promise and deliver more.

MORE than standard cardio products, Octane offers a variety of forward-thinking modalities for the cardio floor, HIIT and more

MORE than an equipment supplier, we are a strategic partner that presents distinctive custom solutions

MORE than being everything to everyone, we are specialists, known for our uncompromising standards and integrity

MORE than just a smaller player, we are nimble and part of an industry-leading company with 40 years of expertise in building high-quality products and delivering superior service

Octane Fitness equipment fuels health clubs, studios, recreation centers, corporate wellness facilities, colleges and universities, professional sports teams, the U.S. military and more around the world.

Octane Rō™

ROWING REDEFINED

OCTANE ADVANTAGES

- Quick-release foot strap
- Dual resistance — fan and magnetic brake
- MultiGrip handlebar
- Enhanced console featuring a calorie meter
- Comfort seat
- Oversized handlebar catch
- Small footprint

QUICK-RELEASE FOOT STRAP

This patent-pending design enables exercisers to quickly insert their feet and pull up on the handle for a secure fit. A simple push of a button releases the strap for an easy exit.

DUAL RESISTANCE

Combined fan and magnetic brake resistance provides a broader range of intensity levels to accommodate everything from easy rows to grueling HIIT sessions.

MULTIGRIP HANDLEBAR

Multiple hand positions facilitate greater comfort, variety and more activation of chest, back and arm muscles.

ENHANCED CONSOLE

This 7" backlit LCD monitor features a dynamic calorie meter, plus real-time performance metrics, to motivate exercisers to work hard.

Standard Console

UPPER BODY

The cushioned MultiGrip handlebars let exercisers choose from horizontal or vertical placement options to target different muscles and add variety; or isolate the upper body using the stationary anti-slip foot pegs with triple-sided grip pads for traction.

MAXIMUM RESULTS

Total-body workouts are superior when it comes to users increasing their ROI. Because exercisers are the motor on the AirDyneX bike, they determine the intensity level and amount of resistance.

EFFICIENT BELT DRIVE

The single-stage belt drive responds immediately to exercisers' efforts, so they can capitalize on custom-generated resistance. Two-stage systems lose some power in the transfer. The belt drive also provides smooth, quiet motion that chain drives cannot deliver.

CUSTOMIZED COMFORT

Precisely designed for extra comfort, the AirDyneX bike has multiple adjustment options to accommodate different size users.

PERFORMANCE REDESIGNED

OCTANE ADVANTAGES

- Full-commercial grade
- 26-blade performance fan
- Inertia performance drive system
- Single-stage belt for instant activation
- Class A watts rating
- Smooth motion
- HIIT workouts
- Calibration technology

LATERAL MOTION

Active side-to-side motion increases caloric expenditure by up to 27% and increases hip muscle activation when going from the narrowest to the widest width.*

ADJUSTABLE MOTION

Ten adjustable width levels begin in a narrow stepping motion and diverge to an active, side-to-side movement for greater variety.

UPPER-BODY ERGONOMICS

MultiGrip and Converging Path handlebars engage the upper body and custom-fit exercisers.

ADVANCED PROGRAMS

Exercisers can take on HIIT with Octane's exclusive 30:30 Interval and MMA workouts, which incorporate rigorous intervals for challenges that help drive results.

MOVE IN A DIFFERENT DIRECTION

LATERAL X

OCTANE ADVANTAGES

- Up to 27% increase in caloric expenditure when going from narrowest to widest width*
- Adjustable lateral 3-D motion
- Adds muscle confusion with 10 varying planes of motion
- Great for sports, rehab and stability training, working the hips, thighs and glutes

An all-in-one machine that lets exercisers **walk, run, hike** or **climb** to target different muscles for customized effectiveness.

WALK

The biomechanically precise motion of the XT-One machine delivers a low-impact, comfortable walk, with a choice of shorter or longer strides to custom-fit exercisers with different leg lengths.

RUN

Exercisers can change pace or stride length to customize their run motion. Or they can take advantage of SmartStride® interactive ergonomics, which replicate jogging or running by automatically adjusting the stride length from 20"-28" based on the user's pace.

HIKE

Hit the hills and boost cardiovascular and muscular endurance by selecting from 10 incline levels that target the legs and work the upper body and core. Users can opt for greater challenges with several incline workouts, including Mountain Peak and Progressive Hill.

CLIMB

The ultimate challenge with a steep climb that strengthens the quads, glutes and hamstrings with deep strides and high-intensity cardio and strength work.

XT-One Specifications

PREMIUM QUALITY AT AN UNBEATABLE VALUE

UPPER-BODY ERGONOMICS

MultiGrip and Converging Path handlebars engage the upper body and custom-fit exercisers.

REAL RUNNING MOTION

Delivers supremely comfortable natural movement and flow, both forward and backward.

MMA

Mixed Martial Arts, or MMA, is one of the hottest sports worldwide. Now exercisers can test their skills in Octane's unique regimen that mimics rigorous training routines like those used by a fighter in the cage.

SIDE STEPS

Add workout variety with this option to focus on the upper body only.

PRO3700C OCTANE ADVANTAGES

REAL RUNNING MOTION

Independent hip and knee joints replicate natural walking, jogging or running motion with limited impact, and custom-fit users of different sizes.

DUAL STRIDE TRACING

Unique technology** enables users to monitor the health of their stride independently, so exercisers can work on balancing their left and right heel kick to correct imbalances and perform better.

LOWER COST OF OWNERSHIP

No belt or deck, and only the console requiring power significantly lowers maintenance and electricity needs.

FLEXIBLE PLACEMENT

Self-powered* and with whisper-quiet operation, the Zero Runner machine affords valuable flexibility.

RUNNING WITHOUT IMPACT

OCTANE ADVANTAGES

- Walk, Jog or Run
- Zero-Impact Running™
- Up to 58" (147 cm) stride length
- Dual Stride Trace™
- Light aluminum legs
- 15 levels of resistance
- Quiet operation

POWERSTROKE™

Optimal leg extension and power drive. Users engage muscles, burn calories and benefit from exceptional efficiency and effectiveness.

UPPER- AND LOWER-BODY ISOLATION

Exercisers can perform total-body routines, or exclusively target their upper or lower body on their own or using a Workout Booster.

CUSTOMIZED COMFORT

The multiple tilt and height adjustments accommodate different size exercisers for the perfect fit and superior comfort.

HIIT WORKOUTS

Exclusive advanced regimens like 30:30 and MMA challenge users to push their limits to drive motivation and results.

THE ULTIMATE RECUMBENT WORKOUT

xRide® XR6000

OCTANE ADVANTAGES

- Total-body HIIT workouts
- PowerStroke™ technology
- Active Seat Position™
- Upper/lower-body isolation
- Step-through design

SWIVEL SEAT

To maximize ease of entry and exit, the swivel seat turns +/- 105 or 210 degrees to comfortably accommodate exercisers.

POWERSTROKE™

Facilitates leg extension to engage more muscles, burn calories and help achieve optimal results from a seated position.

CUSTOMIZED COMFORT

The Active Seat Position is designed for different size exercisers by offering multiple tilt and height adjustments for the perfect fit and superior comfort.

UPPER- AND LOWER-BODY ISOLATION

Users can complete total-body workouts, or exclusively target their upper or lower body during intervals for variety.

PERSONAL ENTERTAINMENT

Exercisers can enjoy their favorite shows and multiple entertainment options via Octane's new LG TV or 900 Mhz wireless TV receiver, which can be seamlessly integrated with either the smart or standard console for a comprehensive personal entertainment solution that offers variety and exceeds expectations.

LG TV

With superior image quality and crisp colors, the premium 15.6" touch screen LG TV offers an intuitive interface and easy access to control buttons; broad tuning capabilities, including compatibility with IPTV and Pro:Idiom; and robust, reliable hardware. Clubs can customize their interactive exercise experience with convenient access to a multitude of TV selections.

Entertainment options are for XT-One, LateraIX, XT4700, XT3700, xR6000, xR6000s, ZR8000

INSTANT ACCESS TO POPULAR APPS

Now, Octane's premium smart console offers a quick, convenient way for exercisers to enjoy their favorite apps during their workouts for enhanced entertainment and engagement, which can improve exercise adherence and member retention.

IMMEDIATE, SINGLE BUTTON SIMPLICITY

Individuals simply press one button on the Octane console to log into Netflix™ and Amazon at any time during workouts. In today's time-crunched, tech-savvy society, exercisers now can easily multitask and capitalize on entertainment and shopping while they work out.

ADVANCED TRAINING PROGRAMS

MIXED MARTIAL ARTS (MMA)

PUNCH UP THE INTENSITY. PROGRAM MIMICS REAL-LIFE BOUTS.

Now exercisers can test their skills in Octane's unique regimen that mimics rigorous training routines like those used by a fighter in the cage.

After a 3-minute warm-up, exercisers battle it out with the machine in five-minute rounds that include five alternating 'fight' and 'recover' intervals of various lengths. The harder users punch with their arms, the more resistance the machine delivers. They recover for three minutes, then begin again. It's truly a stamina-building experience!

30:30 INTERVAL

MOTIVATES AND CHALLENGES. IMPROVES HEART RATE RECOVERY FITNESS.

The 30:30 program is an innovative workout program available exclusively on Octane Fitness machines. It motivates and challenges exercisers of all abilities, from beginners to elite athletes, and boosts cardiovascular performance. This unique routine also works as a fitness measurement tool; the faster the heart rate recovery, the greater the fitness level. Tracking improvements in heart rate recovery is a key factor in measuring overall fitness condition.
